We need homes for our children. Don't let them sell our land

We, the undersigned, oppose the plans to sell off council land in the Burngreave ward to make way for private developers. As much as 70% of the former Woodside is being designated for private housing that most local people will never be able to afford. If we don't get affordable social housing then our children will have nowhere to go. We believe our council land should be used for social housing.

Homes not profits!.
